Intent:	If the builder uses simple turndown control to meet fan system power consumption requirements, then this acceptance testing is required in addition to the 2025-CEC-NRCA-PRC-14a-F and 2025-CEC-NRCA-PRC-14b-F. It is recommended to complete, to the extent possible, both compliance documents 2025-CEC-NRCA-PRC-14a-F and 2025-CEC-NRCA-PRC-14b-F prior to starting this acceptance test. NOTE: If control signals have been calibrated to measured flow rates and power consumption, recorded control signals are acceptable methods of measurement.
